ALBRECHT
AE 75 H

Radio scanner for receiving radio services

With the AE 75 H, the world of radio simply fits in your hand. The handy radio scanner receives radio services from 25 to 512 MHz, including the airband.

There is no need to spend ages searching for frequencies: 7 preprogrammed service bands and the close-range signal search get you there in no time. Your favourites are stored on 300 memory channels.

Rechargeable batteries, antenna, belt clip and USB cable are included, so the scanner is ready for use on the go right away.

Please note that listening to some of the frequencies mentioned may not be permitted in your country.

KEY FEATURES

Wide frequency range
Reception of 25–88 MHz, 108–137 MHz (airband), 137–174 MHz and 400–512 MHz

7 preprogrammed service bands
Emergency, Freenet, PMR, Marine, Air, CB and Ham – finding radio services made easy

Close Call close-range scan
The close-range signal search tracks down active transmitters in your immediate vicinity

300 memory channels
In 10 memory banks, plus up to 10 priority channels for important frequencies
