

CB-Radio

> AE 4200 EU

NEW!

**12 V/24 V connection
without switching**

- ▶ All European CB-Standards
- ▶ Energy saving 24V operation
- ▶ LED channel display
- ▶ Automatic Squelch (ASQ)

The new AE 4200 EU 12/24 allows the connection to 12 V or 24 V currents without having to switch manually.

The large LED channel display and the TX/FM indicators are clearly visible. By activating the automatic squelch (ASQ) there is no need to adjust the noise threshold, in most cases. The EEPROM function and the country switch complete this easy to use CB radio.

Optional car holder
▶ Ord.-No.: 75480

Specifications

- ▶ Multi-standard device:
All European standards
- ▶ 12 V/24 V connection without switching
- ▶ LED channel display
- ▶ TX LED (red)
- ▶ FM LED (green)
- ▶ AM/FM switch
- ▶ Squelch, ASQ
- ▶ 4 pin microphone jack on the front panel
- ▶ UP/DOWN-keys on the front panel
- ▶ Connections for antenna (PL-socket) and external loudspeaker (3.5 mm)
- ▶ For outside EU use or Ham radio users extendable to 400 channels and 15 Watt FM/ 8 Watt AM

▶ Ord.-No.: 12013
