ALBRECHT ATR/ATT 400 Tourist Guide System

PROFESSIONAL
SOLUTIONS

Albrecht Tourist Guide devices are ideal for passing on information during tourist and cultural activities – whether on group trips, museum tours, city and factory tours, or on bus trips and cruises.

The Albrecht Tourist Guide system always ensures an unforgettable experience.

The handy, ultra-compact devices deliver crystal-clear reception thanks to 2.4 GHz ISM band technology that can be used worldwide.

The Albrecht communication system can be flexibly configured from one transmitter and any number of receivers. The wired ATR 400 serves as the receiver.

KEY FEATURES

Easy operation

Combine any number of receivers into one group with a single press of a button on the transmitter.

Very clear voice transmission

Crystal-clear reception up to 200 m thanks to 2.4 GHz ISM band technology that can be used worldwide.

Up to 80 groups

Up to 80 configurable groups prevent mutual interference.

Approx. 18 hours of operating time

Compact dimensions (H: 86 x W: 50 x D: 18 mm, 50 g) and compatible with all common headphones with a 3.5 mm jack.

ATR/ATT 400
