CB HANDS-FREE KIT

The new MIDLAND kit allows talking **via CB** while driving, without moving your hands from the steering wheel.

It is precisely the new 2020 Highway Code that allows us to focus on the great potential of the new communication system: the ability to communicate HANDS-FREE by placing the microphone comfortably on the dashboard and pressing a button on the steering wheel.

This system prevents incurring the now harsher penalties provided for those who are caught driving with a CB microphone in hand (even if so far "tolerated") or with a smartphone.

NO MORE DISTRACTIONS. NO MORE FINES.

DUAL MIKE

The Dual Mike is the new microphone for CB that 'debut online' with the Bluetooth connection that allows connection to a Smartphone. Extremely innovative and functional, Dual Mike is equipped with analogue PTT, pre-amplified microphone, DSP for improved voice quality and light ring for notifications, as well as a long-lasting battery. To talk to your travel companions without limits.

DUAL MIKE represents the future of communication between users who live the road more than others.

Through the CB TALK APP, it is possible to activate and customize the equalizer and the ECHO, also based on your CB; by doing this, you have the opportunity to be heard with the best possible voice.

PLUS

*Possibility of customising the Light Ring
5 colours available.*
