

Internet-/Digital- (DAB+) and FM-Radio

**NEW!** Color display and DLNA home networking!

# ALBRECHT DR 315 C

The Internet, digital and FM radio DR 315 C by ALBRECHT Audio presents itself after a complete makeover with state-of-the-art technology color display and the DLNA home networking function, it offers even more comfort at the highest technical level.

Designed in trendy retro style the radio can also be operated via smartphone – this means that the DR 315 C can play individual music compilations from the mobile phone. Additionally the device can receive thousands of Internet radio stations. The stations can be selected after genre, region, favourites or podcast.

The digital radio provides a crystal clear sound and shows additional services such as title names, artists info and text messages provided by the radio station. Of course FM stations can also be received with the DR 315 C.
