

Web radio with colour display
and DLNA home networking

ALBRECHT DR 422

- ▶ Receipt of more than 25,000 radio stations
- ▶ Large colour display and new menu navigation
- ▶ DLNA home networking activated by a corresponding app:
 1. Radio control by the smartphone
 2. Playback of the own music from the smartphone via DR 422

In conjunction with a WLAN router the web radio DR 422 receives more than 25,000 radio stations from all over the world.

To make sound richer, you can also connect your device to a stereo unit or a speaker system. An easy-to-use menu is integrated in a large colour screen, which also shows interesting additional information, such as weather forecasts.

Home networking is possible via an app through the DLNA: On the one hand, the radio can be controlled by the smartphone, on the
