The Internet radio Albrecht DR 470 N brings together several options for convenient radio reception and music streaming in one compact and visually appealing device.

Over 25,000 internet radio stations from all over the world as well as classic FM stations can be received via the DR 470 N.

Android

Apple iOS

## DLNA function via APP

Thanks to DLNA home networking and the free „AirMusic Control“ App, the Albrecht DR 470 N becomes a smart speaker: music or radio can be played on the radio in best digital sound quality from a smartphone or tablet PC. Several functions can also be controlled via the app. If required, the DR 470 N can be connected to the PC using the „Universal Plug and Play“ (UPnP) function. Media released for playback on the computer can then be selected on the display and played on the radio.
