

ALBRECHT DR 54

Digitalradio DAB/DAB+ tuner: wireless streaming to your car radio or to your stereo system in your living room

The small DAB+ tuner with its noble design is a real all-rounder. It allows crystal clear reception of DAB+ (digital radio) stations both on the road and at home. The installation is quick and easy - without much effort.

The integrated FM transmitter enables wireless transmission to the car radio or home hi-fi system. The tuner can be installed using either a suction cup or the adhesive mount. When driving, the active DAB+ windshield antenna ensures the best possible and stable reception of your favorite stations.

At home, the flexible tuner can transmit DAB+ stations wirelessly to a stereo system or other radios.

Also suitable for music transmission to your home stereo system

Use in living room:

- ▶ Wireless transmission in the living room to a stereo system or other radios
- ▶ Flexible to use, e.g. operation from the sofa thanks to practical cable antenna
- ▶ Alternatively, wired transmission via aux-out is possible

Wireless transmission to the car radio via FM transmitter

Use in the car:

- ▶ Wireless or wired transmission to the car radio
- ▶ Active DAB+ window antenna
- ▶ Adhesive or suction cup mount
- ▶ LC display
- ▶ USB adapter with second connector for charging external devices (e.g. smartphone)
