G18 PRO NC

PROFESSIONAL WALKIE TALKIE

THE indestructible WALKIE TALKIE becomes Professional with the Noise Cancelling added and exceeds MILITARY reliability standards.

Professional Walkie Talkie

G18 PRO NC

The most advanced model in the PMR446 walkie talkie line exceeds military reliability levels. It retains a robust frame, a high-visibility screen and an IP67 certification that guarantees resistance to dust and water, making it suitable for even the most extreme environments.

The G18 PRO also integrates the **Noise Cancelling** function, for clear and disturbance-free communications even in the noisiest contexts, and is designed to adapt to all needs and situations of use.

Key Points

- **NOISE CANCELLING**
To ensure clear and noise-free communications.
- **Bright DISPLAY**
To see clearly and set the radio easily.
- **FULL OPTIONAL**
(Dual watch, Scrambler, RRM, Radio FM. Etc.)

Professional Walkie Talkie

G18 PRO NC

Choosing a transceiver like the **G18 PRO** means being able to communicate freely over long distances, without subscription costs and with a device designed to last.

The G18 PRO is the ideal solution for those looking for reliability and performance in every situation, from outdoor work to the most difficult environmental conditions. This model is the most advanced of the PMR446 range, specifically designed to offer stable and secure communication.

This Walkie Talkie integrates two advanced functions for secure and efficient communication. The **Scrambler function** guarantees conversations protected by encoding voice messages, making them understandable only to enabled devices. The **second compander function** adapts the transmission level based on who is transmitting. In practice, the signal level is automatically adjusted based on the intensity of the voice, increasing or decreasing the transmitted level as needed.

Thanks to the construction according to the military standard MIL-STD810G and the IP67 certification, G18 PRO is **completely resistant to dust and water, with the ability to dive up to one meter deep for up to 30 minutes**. This robustness makes it perfect for intensive use and in demanding environments, ensuring operational continuity even in extreme conditions.

Among its advanced features, the G18 PRO includes **Noise Cancelling technology**, which ensures clear audio even in noisy environments, as well as options such as Scrambler and Compander, to improve safety and communication quality. With an output power of $\leq 500\text{mW}$ ERP and a 12.5KHz channeling step, it is also equipped with functions such as channel scanning, voice tuning and roger beep signal, for simple and immediate transmission.

The G18 PRO offers a **unique combination of advanced technology and extreme durability**, ideal for those looking for high-quality communication, without compromise, even in the most demanding situations.

Professional Walkie Talkie

G18 PRO NC

Technical features

- PMR446 transceiver
- 99 channels: 16 + 83 pre-programmed
- MIL-STD 810G Military Standard compliance
- Noise Cancelling
- Dual Watch
- IP67 compliance
- Rete Radio Montana (only for Italy)
- 50 CTCSS tones + 105 DCS codes
- Scrambler
- FM Radio (programmable with PRG-G15)
- Comander (programmable with PRG-G15)
- Vocal tuning
- Scan, Monitor, VOX.
- 1600 mAh battery pack (22h battery life)
- Weight: 240g (battery included)
- Dimensions: 113 x 56 x 38 millimeters
- 2-pin Motorola accessory socket
- Extra EU at 5W

Packet contents

- transceiver, belt clip
- 1600mAh lithium battery pack, desktop fast charger
- wall adapter

Code: C1145.04

EAN Code: 8011869206658

Compliant with European CE regulations
