

ALBRECHT AE 5900 Mini SSB

The Albrecht AE 5900 Mini SSB is a compact CB radio that packs plenty of power into a small footprint. At just 165 × 122 × 35 mm, it fits easily into a truck cab, a van or a tractor. Besides AM and FM, it transmits in SSB with up to 12 watts – for significantly greater range. The TFT colour display shows the S-meter and power meter at a glance, while SWR protection with an adjustable threshold keeps the transmitter safe from mismatch. NRC noise reduction ensures clear communication and VOX lets you talk hands-free. CTCSS/DCS, repeater function, dual watch and clarifier support reliable connections – on the job and on the road. The illuminated 3-button microphone with programmable centre button keeps key functions at hand.

KEY FEATURES

SSB with 12 W output

Significantly greater range than in AM and FM mode at 4 W each.

Adjustable SWR protection

Protects the transmitter against mismatch and warns early of a high standing wave ratio.

Repeater function

Extends the range through relay operation – for reliable contacts over longer distances.

TFT colour display & S-meter

Clear display of all key values and precise indication of signal strength.

ALBRECHT AE 5900 Mini SSB

FEATURES

- Compact design for vehicle installation
- TFT colour display with S-meter and power meter
- SWR protection with adjustable threshold
- Repeater function
- VOX hands-free function
- CTCSS / DCS
- DSP noise reduction NRC
- 2 freely selectable emergency channels
- Clarifier and dual watch
- Public address function (PA)
- Illuminated 3-button microphone, programmable centre button

TECHNICAL DATA

- **Modes:** AM / FM / SSB
- **Transmit power:** 4 W (AM) / 4 W (FM) / 12 W (SSB)
- **Dimensions:** 165 × 122 × 35 mm
- **Weight:** 700 g

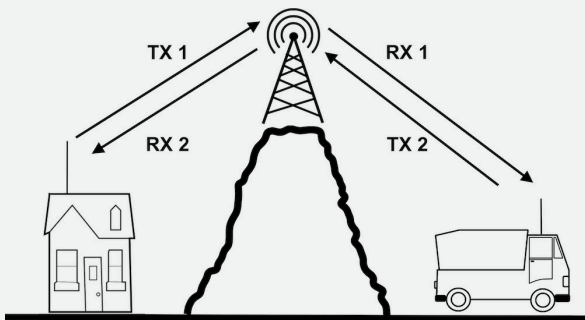

PACKAGE CONTENTS

AE 5900 radio, 3-button microphone, mounting bracket, detailed instructions

Item No.: 12591

Repeater function
