MP-W, adapter cable with 12V cigarette lighter/DIN socket (BMW)

MOTORCYCLE power supplies

MP-DIN USB CAR LIGHTER

DESCRIPTION

The **MP-DIN USB CAR LIGHTER** is the first product in the Midland Power family.

Specifically, it is an adapter for small size cigarette lighters (BMW standard) consisting of a 12/24V cigarette lighter socket, USB socket and Type-C USB with cigarette lighter output. A model with a pleasant and elegant design, but at the same time practical and comfortable thanks to its small size, which allows you to charge up to three devices simultaneously via a single cigarette lighter socket. During its use, the bezel is illuminated, thus allowing you to verify its correct operation. The package contains a cigarette lighter adapter.

KEY POINTS

- BMW standard
- It allows you to charge up to three devices via the cigarette lighter socket.
- The illuminated bezel, during use, signals its correct operation.

DIMENSIONS:

55 x 27 x 74 mm

WEIGHT:

66.5 g

Code: C1565

MOTORCYCLE power supplies

MP-DIN USB-C

DESCRIPTION

The **MP-DIN USB-C Midland power supply** is the second product that is part of the Midland Power family. Specifically, it is a power supply with Type-C USB socket to be used for motorcycles, cars, campers and caravans. A 12/24V charger and power supply with USB-C socket that can also be used on heavy vehicles as long as the latter are equipped with this socket. Based on the device that is connected to it, the device allows to modulate and adapt the charging voltage and current, whereby it also possibly allows to charge devices that have a rapid charging potential. It is equipped with a connector for BMW accessories, precisely the DIN PLUG ISO 4165 used on BMW motorcycles, like the Powerlet connector.

KEY POINTS

- Supply with USB C socket for motorcycles, cars, campers and caravans.

DIMENSIONS

60 mm x diameter 27

WEIGHT

33 g

Code: C1514

MOTORCYCLE power supplies

MP-H 2 USB C/A

DESCRIPTION

MP-H 2USB C/A is the third component of the Midland Power family.

Designed to ensure reliable, high-performance power in any condition, the MP-H 2USB is an intelligent USB charger for motorcycles, scooters, and ATVs. Thanks to its dual high-speed USB-A and USB-C ports, it allows simultaneous charging of electronic devices such as smartphones, GPS navigators, action cameras, and other digital accessories—even while riding.

KEY POINTS

Dual USB-A and USB-C socket for simultaneous charging of 2 devices.
An ideal accessory for motorcycles and scooters.

DIMENSIONS:
22.3 × 51.5 mm

WEIGHT:
108 g

CODE:
C1702

MP-W

DESCRIPTION

The **MP-W** is the fourth and latest product in the Midland Power family. It is an adapter cable with a 12V cigarette lighter/DIN socket (BMW) which is compatible with all Midland brand intercom models. This accessory also demonstrates its quality having been created thanks to continuous research and development, elements in which the company has been investing for over six decades and which has allowed it to become a leading brand in the consumer electronics market.

KEY POINTS

- Practical adapter cable from DIN connector to 12V cigarette lighter socket
- Airtight silicone seal to protect it from mud and water
- Compatible with all Midland intercom models.

DIMENSIONS:

165 mm x diameter 28

WEIGHT:

55 g

Code: C1197

MIDLAND POWER

The power supplies produced by Midland that make up the Midland Power family are all designed and manufactured according to rigorous quality standards and with the use of optimal, resistant and long-lasting materials, considering that the entire design and development process is followed and managed entirely from the internal division of the company.

MP-W
adapter cable

MP-H 2 USB C/A
Dual USB-A and USB-C socket for simultaneous charging of 2 devices

Mini-din adapter (BMW standard)

MP-DIN USB-C ALIMENTATORE MIDLAND
12V type-C USB socket charger

In addition to taking into consideration the fact that they can ensure excellent reliability and resistance thanks to their sturdiness, it must be emphasized that they are all products that are easy to install and simple to use, without forgetting that they boast an elegant and modern design, also thanks to their appearance, absolutely unobtrusive due to the small size of some of the accessories.
