OUTDOOR & HOBBY

ALBRECHT

DR 111 Crank Radio

Compact, rugged and always ready: the DR 111 accompanies you when camping, hiking, in the workshop or on the building site – and keeps you reliably informed when it matters. Power comes from the replaceable 2000 mAh battery, the hand crank, the solar panel or USB-C. This lets you receive DAB+ and FM even during a power outage and get ASA emergency alerts. The 2" TFT colour display gives you a clear overview, and via BT you can stream music directly from your smartphone. In an emergency, the SOS alarm and LED torch help you, and as a power bank the radio charges your smartphone. The shock-resistant housing is water-resistant to IPX3.

KEY FEATURES

Versatile power sources
Battery, crank, solar panel or USB-C – ready to receive even during a power outage.

ASA emergency alerts
Automatic warnings via DAB+ inform you quickly about hazards.

Mobile power bank
Charge your smartphone on the go via USB-A or USB-C.

SOS alarm function
A loud siren and a bright LED torch alert rescue teams to your position in an emergency.
