Flashlight and reading light

Versatile power sources

Powered by rechargeable battery, hand crank, USB or solar panel

DAB+ and FM reception

Integrated ASA warning system

Automatic reception of official warnings, even in standby mode

Power bank

Charges electronic devices via USB

Shock- and splash-resistant housing

rated IPX5

SOS alarm function

audible and visual signal

A true all-rounder: the compact DR 112 outdoor radio doesn't just keep you up to date with news and music on the go (FM / DAB+ / streaming) – it also works as a flashlight, reading light, thermometer and power bank, all without a power socket! Thanks to the integrated ASA warning system, it automatically alerts you in case of danger, even in standby mode. As a solar and hand-crank radio, the DR 112 doesn't rely on any external power source, making it perfect for outdoor activities and, of course, for everyday situations. Back home or in the car, the DR 112 recharges easily via USB.

ALBRECHT DR 112
