

ALBRECHT DR 53 DAB+ Tuner

Bring your stereo system into the digital age: the compact DR 53 digital radio tuner connects to your stereo or to external speakers with a simple RCA cable and delivers noise-free DAB+ reception straight away. Of course, it still receives all your familiar FM stations too. At its heart is a large 4-inch colour display: station names and song titles appear in large, easy-to-read lettering, along with DAB slideshows, station logos, album covers, pictures and news. With 60 presets, your favourite stations are always close at hand. Thanks to BT music streaming with ID3 transfer, you can also play music from your smartphone or from Spotify through your system with ease. The remote control lets you operate the DR 53 comfortably from the sofa. Three brightness levels, a height-adjustable viewing angle and two alarm times round off the package. A simple way to make any stereo system future-proof.

KEY FEATURES

Large 4" colour display

Shows station logos, album covers, slideshows and news – stations and titles in large, easy-to-read lettering.

60 presets

Mixed presets for DAB+ and FM: your favourite stations are always just a button press away.

BT music streaming

Listen to music from your smartphone or Spotify on your stereo – with ID3 transfer of track information.

Remote control & equalizer

Convenient operation from the sofa and an equalizer to tailor the sound to your taste.
