

ALBRECHT DR864 Digital Radio

This modern stereo radio for DAB+ and FM stands out with a switchable comfort mode that reliably prevents operating errors by limiting the controls to on/off, volume and five station buttons. For maximum safety and accessibility, the radio also reliably receives ASA alerts – even in standby – and offers voice output and menu navigation in nine languages.

The 4.3-inch TFT colour display ensures excellent readability, and the clearly arranged buttons make everyday operation particularly intuitive.

The package is rounded off by a remote control for convenient operation and the handy option to stream music with title display directly from your smartphone.

KEY FEATURES

Crystal-clear reception

Interference-free digital radio via DAB+ with a wide choice of new stations.

Excellent readability

Large, easy-to-read 4.3" colour display for an optimal view of all information.

Safe operation

The switchable comfort mode reduces the functions to the essentials and prevents operating errors.

Enhanced safety

The radio receives important ASA alerts and keeps you informed about current hazards at all times.

Sleep soundly
with ASA alerts!
