

ATR/ATT 400

The Albrecht Tourist Guide devices are ideal for the transmission of information during tourist or cultural activities. Whether for group tours, museum tours, city and factory tours, or bus and cruise tours.

The Albrecht Tourist Guide System always ensures an unforgettable experience.

The handy devices in mini format guarantee crystal-clear reception thanks to the 2.4 GHz ISM band technology that can be used worldwide.

The Albrecht communication system can be flexibly combined with a transmitter and any number of receivers. For the receiver, you can choose between the wired ATR 400.
