

Bluetooth Adapter for communication and audio reception on motorbikes

BPA 400

Supports Smartphones with voice control

The Albrecht BPA 400 is an adapter for wireless connections to telephones, GPS navigations or MP3 players.

The HiFi earphones have an excellent sound with full volume and strong bass.

The BPA 400 adapter is supplied with an adhesive mount which can be easily attached to a helmet. The earphones and the microphone are removable. So, if desired, only an earphone can be used or it can easily be replaced.

There is also the possibility to use the intercom function via optional cable to communicate with your passenger.

The BPA 400 is also ideal in combination with the Midland BTTalk button and the free BTTalk App.
