G13 PRO

PROFESSIONAL WALKIE TALKIE

THE DUAL BAND FOR THE MOST DEMANDING HUNTERS, UP TO 40H OF AUTONOMY.

Professional Walkie Talkie

G13 PRO

The G13 PRO is a **versatile dual-band radio with advanced performance**. Equipped with a "double soul," (PMR446 and LPD) it adapts perfectly to multiple contexts, making it ideal for both professional use and outdoor activities. Whether it is managing communications in **complex work environments** or maintaining contact during **outdoor adventures such as hunting and hiking**, the G13 PRO always guarantees clear and reliable transmission. Its **robustness** and **ease of use** make it the perfect tool for those looking for a quality radio, ready to respond to every need.

Key Points

- **DUAL BAND**
PMR 446 /LPD
- **Bright DISPLAY**
To see clearly and set the radio easily.
- **40H AUTONOMY**
- **ABOVE-AVERAGE STURDINESS**
To offer greater impact resistance, the chassis is made of aluminium

Professional Walkie Talkie

G13 PRO

The **G13 PRO** is a **dual band** radio that supports both **PMR446** and **LPD** channels, offering maximum flexibility of use. This combination of frequency bands allows you to easily adapt to different communication needs, making it ideal for both **professional contexts** and **outdoor activities**.

The lithium battery offers a **long autonomy (40h)**, with a rapid charging circuit for constant availability. In addition to the “ready to use” features, the device is programmable via software to customize the channels and activate or deactivate specific functions, thus adapting to different usage needs.

The G13 PRO aims for maximum **ease of use**, with an intuitive control layout recognizable by touch. **The large display** and the two main knobs – a large one for changing channels and a smaller one for volume control and power – make interaction simple and immediate.

The device's robustness is guaranteed by the aluminium chassis, and the IPX4 water resistance ensures reliability even in difficult environmental conditions. MIDLAND has paid particular attention to **audio quality**, equipping the G13 PRO with a sound response above average, for always clear and powerful communications.

Finally, for those who practice hiking and trekking, the **RRM Channel** function offers a further advantage: it allows you to automatically select the main frequency of the Montana Radio Network, a fundamental tool for reporting any emergencies.

Professional Walkie Talkie

G13 PRO

Technical features

- Extended frequency band: 446.00625 – 446.19375MHz
- 85 channels 16 PMR446: 16 + 69 LPD
- High efficiency, 2,600mAh Li-ion battery (autonomy up to 40 hours)
- High-performance loudspeaker
- LCD display with backlighting
- Aluminium chassis
- IPX4 watertightness
- LIGHT keyboard (3 keys only)
- Extra EU at 5W
- RRM channel (RADIO MONTANA network)
- Scrambler (via optional programming software)
- VOX, Scan, Dual Watch, Monitor
- 2-pin KENWOOD accessory socket

Packet contents

- G13 transceiver with belt clip
- 1 Li-Ion 2600mAh rechargeable battery pack
- 1 wall adapter
- 1 desktop charger

Code: C1668

EAN Code: 8011869207792

Compliant with European CE regulations.

Also available as:

G13 PRO 2-pack hardcase

Package contents

- 2x G13 with belt clip
- 2x AE34-K headsets
- 2x Li-Ion battery packs 2600 mAh
- 2x desktop chargers
- USB-A/USB-C charging cable
- 1x hardcase

Code: C1668.S1

EAN Code: 4032661166814

Compliant with European CE regulations.
