PMR446 radio

G9 PRO

TECHNICAL FEATURES

- Extended PMR446 frequency band: 446.00625 – 446.19375MHz
- 8 new PMR446 channels
- 101 channels: 32 PMR446 (16+16 pre-programmed) + 69 LPD
- High-performance loudspeaker
- Wide LCD display
- Weatherproof IPX4
- Power supply: batteries or Ni-MH/Lithium battery packs (optional)
- Double PTT for high/low power transmissions
- Emergency call function
- “Radio in range” call function
- VOX with TalkBack™
- Side tone: end of transmission tone silencer
- 38 CTCSS tones + 104 DCS codes
- Vibracall function
- Dual watch, key lock, Scan, Monitor
- Battery status indicator and power save
- Weight: 114 g
- Dimensions: 68 x 120 x 35 mm

Starting from the numbers, the G9 Pro boasts 8 new PMR446 channels, reaching 101 channels overall, with an extended frequency band – from 446.00625 to 446.19375 MHz – and CTCSS and DCS channels. The channels are visible in the large LCD display

Immediately to the side, the double PTT button to adjust the high and low power. It is the radio with the highest performance for you who practice softair and outdoor activities: IPX4 certified waterproof, it withstands rain. Furthermore, you could always communicate hands-free: just activate it vocally, communicate with your friends and colleagues with quick responses (thanks to the Talk Back function you interact live, without having to wait for the end of the broadcast).

And when the communication ends, you hear the Roger Beep signal. The Call key allows you to select 5 tones of your choice and if you hold it down for a long time, you lock the keyboard. Of course, there is also the red button that activates the emergency call.

Ready to communicate with the best that is available?

COMPLIANCE

Device in compliance with the RED 2014/53/EU regulation

PMR446 radio

G9 PRO MIMETIC

The Midland G9 PRO is the most widely used radio in any outdoor context.

It has a more modern design, a range of up to 12 km, a large LCD screen showing the icons of the functions activated. It also has a dual PTT button that allows instant selection of high and low power.

When camouflage becomes a fundamental part of your hobby, every single detail is important.

The G9 PRO MIMETIC version lives up to expectations and becomes the perfect tool for all hunting activities.

Original pattern

No. 1 company in the USA since 1986. A real symbol in the world of hunting and outdoor activities.

CODE: C1385.01

Radio PMR446

G9 PRO Blaze

The Midland G9 PRO is the most widely used radio in any outdoor context.

It has a more modern design, a range of up to 12 km, a large LCD screen showing the icons of the functions activated. It also has a dual PTT button that allows instant selection of high and low power.

If, on the other hand, you want to be recognised and seen in the midst of nature, we recommend the BLAZE version, which comes in a bright orange colour.

It's impossible to get lost with G9 PRO BLAZE.

Original pattern

No. 1 company in the USA since 1986. A real symbol in the world of hunting and outdoor activities.
