

> Albrecht **Multicom**

Communication with Albrecht Multicomms: Very easy and in full duplex

The Albrecht Multicom radios offer communication in full duplex (speak and listen at the same time) for up to 5 persons while up to another 94 participants can listen.

The operation is very easy: turn the units on, put on the headset and start communicating without having to press any buttons - up to 10 hours. They are allowed to use everywhere in Europe (thanks to the 2.4GHz ISM band) without any additional costs.

The multifunctional and water resistant units are suitable for all kind of application areas: referees during a sporting event, security during concerts, for conferences, on construction sites and many more...

It is possible to create several groups for various communications. The radios are also very small and have a big, easy to read display.
