# TRUCK GUARDIAN WIRED

The wired surveillance camera  
for all large vehicles.

Monitor + Camera kit.  
Dash Cam

# TRUCK GUARDIAN WIRED

Truck Guardian Wired is the wired version of the Truck Guardian Pro truck camera, designed to improve manoeuvring visibility and vehicle safety. Equipped with a trigger for up to 3 cameras and a menu that can be customised remotely with the remote control, this new model is even more stable and cost-effective. The monitor and camera kit with 18 infrared LEDs is a perfect driving aid both by day and by night.

No more blind spots with Truck Guardian Wired

## KEY POINTS

### MANOEUVRING AID

thanks to the reversing camera.

### CUSTOMISED FOOTAGE

with trigger for up to 3 cameras and activation control

### MORE STABLE AND SUITABLE FOR LARGER VEHICLES

with 20m cable

### NIGHT VISION

thanks to the 18 infrared LEDs.

MONITOR

CAMERA

Monitor + Camera kit.  
Dash Cam

# TRUCK GUARDIAN WIRED

- Remote control for various functions

### Camera:

- 110-degree view
- 18 IR LEDs for night lighting
- IP 69K certification
- Sony sensor
- Shock resistant up to 4g

### COMPLIANCE

Device in compliance with the RE-D  
2014/53/EU regulation

Truck Guardian Wired expands Midland's range of products for truck video surveillance; it complements the Truck Guardian Pro wireless model and offers a practical and more convenient wired system.

It can handle up to three cameras simultaneously (one camera included in the package), and the system can be wired to make driving safer. As an example, the cameras can be connected to each direction indicators: each time the driver activates an indicator, the images recorded by the camera positioned in that direction appear on the monitor.

The option of positioning the camera independently is invaluable to handle manoeuvres in complete safety, to eliminate blind spots in the vehicle, and to have a constant overview of what is happening around it. Thanks to the supplied remote control, the monitor menu can also be conveniently managed remotely by selecting the camera to be displayed or adjusting the brightness.

The camera, with its 18 infrared LEDs, ensures optimum viewing of images both by day and by night, and the 20-metre cable makes the Truck Guardian Wired model highly stable and suitable even for large vehicles.
