# TOUR- & SPORT- GUIDES

**Albrecht ATR 400**

**Tourist Guide Receiver**

The Albrecht Tourist Guide devices are optimal information mediators for tourist applications such as group tours, city tours, shore excursions on cruises, bus tours and much more. Albrecht transmitters and receivers are also used in museums and for factory tours. The Albrecht communication system can be flexibly combined from a transmitter and any number of receivers. The receiver is compatible with all earphones with 3.5 mm connection.

**OS-400 Soundproof Headphones for ATR400**  
The soundproof headphones have a 3.5 mm connector and can be connected e.g. with the Albrecht ATR400 Tour Guide receivers. They are perfect for use in noisy environments to reduce disturbing sounds and noise. Thus, users can e.g. listen undisturbed to the information of the tour guide on factory tours.
