

DR 57 DAB+

Car radio adapter

The Albrecht DR 57 is a DAB+ car radio adapter with hands-free kit for smartphones. Thanks to the FM transmitter or Aux-/Line-Out, the signal can easily be transmitted to the car radio. The active DAB+ foil antenna and the signal stabilizer ensure optimum reception, even at high speeds, while the 2.4" TFT display is dimmable and the service following function automatically searches for alternative frequencies. Other features include music streaming, 30 favorite memories, traffic announcement recognition and a USB charging port. The suction cup holder with ball joint allows flexible mounting.

KEY FEATURES

Simple installation

due to wireless transmission via FM transmitter

Hands-free function

& music streaming via **smartphone**

Automatic transmitter tracking

(Service Follow)

5 station buttons

on the front
