

## Digital-/FM-Radio

### ALBRECHT DR 80-D

- ▶ Alarm clock/sleep mode functions
- ▶ Station preset for 8 DAB+ and 8 FM stations
- ▶ Date and time display

The Albrecht DR 80-D is a combined FM and DAB+ broadcast radio receiver that comes in a very modern retro design.

There are 8 station presets for both DAB+ and FM radio.

#### The highlight:

The DR 80-D can be used everywhere with batteries and is your ideal companion while travelling.

DAB/DAB+ convinces with a clear sound and the quantity of information that can be received by the listener.

The following information can be displayed:

- Dynamic Label Segment (DLS) – this information is provided by the radio station and shows mainly music titles, artist or the contact details of the station
- Programme type: such as „Rock“, „Pop“, „Jazz“ etc.
- The channel and frequency – e.g. 12B 225.64 MHz
- The signal strength on a scale between 0 -99
- Signal bit rate – stereo or mono and data rate, e.g. 192 kbps/MP2

Depending on the ambient noise you can adjust the compression level in three steps (DRC).

It can also be used as a clock radio with sleeper function (with date and time display).

#### NEW!

Now with 1-line display for better visibility!

▶ Art.-Nr.: 27391
